COVID-19 Relief Initiative

1. Infrastructure and Capacity Building: Aims to protect the valuable lives of our front-line health workers and build infrastructure capacity efficiently in hospitals and local communities by procuring and supplying Mobile Kiosks, Disinfectant Ovens and PPEs across India, through validated and tracked channels.

2. Migrant Workers – Sustainable Livelihoods, Food & Essential Supplies: Aims to provide an access to sustainable livelihood skills, jobs, entrepreneurship, microfinance and advisory cells to migrant workers. During the interim period, it is intended to provide food and essential items to their families.

3. Old Age Shelter Homes – Wellness, Nutrition and Essential Supplies: Aims at long-term support for the overall wellness, nutrition, supply of essential food items for elderly and offer programs on service through compassion for their caregivers.

4. Community Sensitisation: Community Sensitisation: Aims to sensitize on preventive measures, build emotional resilience and promote wellness programs amongst all communities of migrant workers, healthcare workers, police, working executives, shelter homes and rural communities.

Project Smile

- ▶ **In collaboration with HP Indigo India**, we reached out to hospitals designated for COVID treatment for Project Smile to provide them with the photo stickers for their Doctors in the PPE suits. As it is difficult to see faces behind a PPE suit, many COVID-19 positive in-patients, find it a frightening “alien” experience. The project aimed to provide comfort to the in-patients, who are already in agony and stressed due to medical conditions.
- ▶ **Pilot Implementation: Jayanagar General Hospital, Bengaluru**
- ▶ In the pilot phase, 100 photo stickers for each of the 14 medical staff deputed for COVID 19 treatment were printed and handed over to the hospital authorities.

Victoria Hospital
Bangalore

Community Sensitisation

- ▶ Online workshops in collaboration with Heartfulness Institute on the theme of Enhanced Emotional Resilience and Self-transformation in times of COVID-19 for various institutions and corporate professionals.
- ▶ These workshops addressed the psycho-emotional challenges of the pandemic like stress, uncertainty, anxiety while building resilience through relaxation and heart-based meditation techniques.

SHGs Online- E Village Market

Background:

- Economic impact of the COVID-19 pandemic in India has been largely disruptive.
- The women Self Help Groups from vulnerable communities have been adversely hit. With their source of income hit hard, they are struggling to make their ends meet and sustain their livelihoods.
- Currently, SHGs lack access to online trading and marketing. Online is a new normal.
- The project **E-Village Market** envisions enabling SHGs to promote their products online and become self-reliant communities.

On boarding SHG Products in Sikkim

Proposed Coverage : 1500 SHGs
Onboarding products : 37500
Direct beneficiaries : 15000
Indirect beneficiaries : 60000

E Village Market

Program Goal:

Build self-reliant communities by leveraging technology for productivity gains resulting in increased market access, year-round demand creation, enhanced income & employment opportunities in rural areas for women SHGs.

Program Approach

- Collaborative E-commerce
- Standalone initiative for SHGs and FPO-Rural Settings
- Unique ecosystem - to train, guide, mentor, and handhold SHGs at every step

Implementation Process

Dynamic dashboards will be made available to track SHGs, product onboarding, orders, and order tracking to enable data-backed decision making.

Tuning in to the rural pulse

- Placing e-commerce at the rural doorstep
- Exclusive platform for FPOs & SHGs
- Brings all stakeholders in the ecosystem
- Low Onboarding cost
- Aggregator of SHGs & FPOs for consumer fulfillment
- Non inventory model
- From Producer to Consumer
- Taking rural produce/community to a global market
- Collaborative & empowering support structure
- Provide relevant & timely advisory to farmers
- Rich catalogue, Nostalgic & local
- Local Language-regional
- Collaborative fulfilment

Envisioned Impact

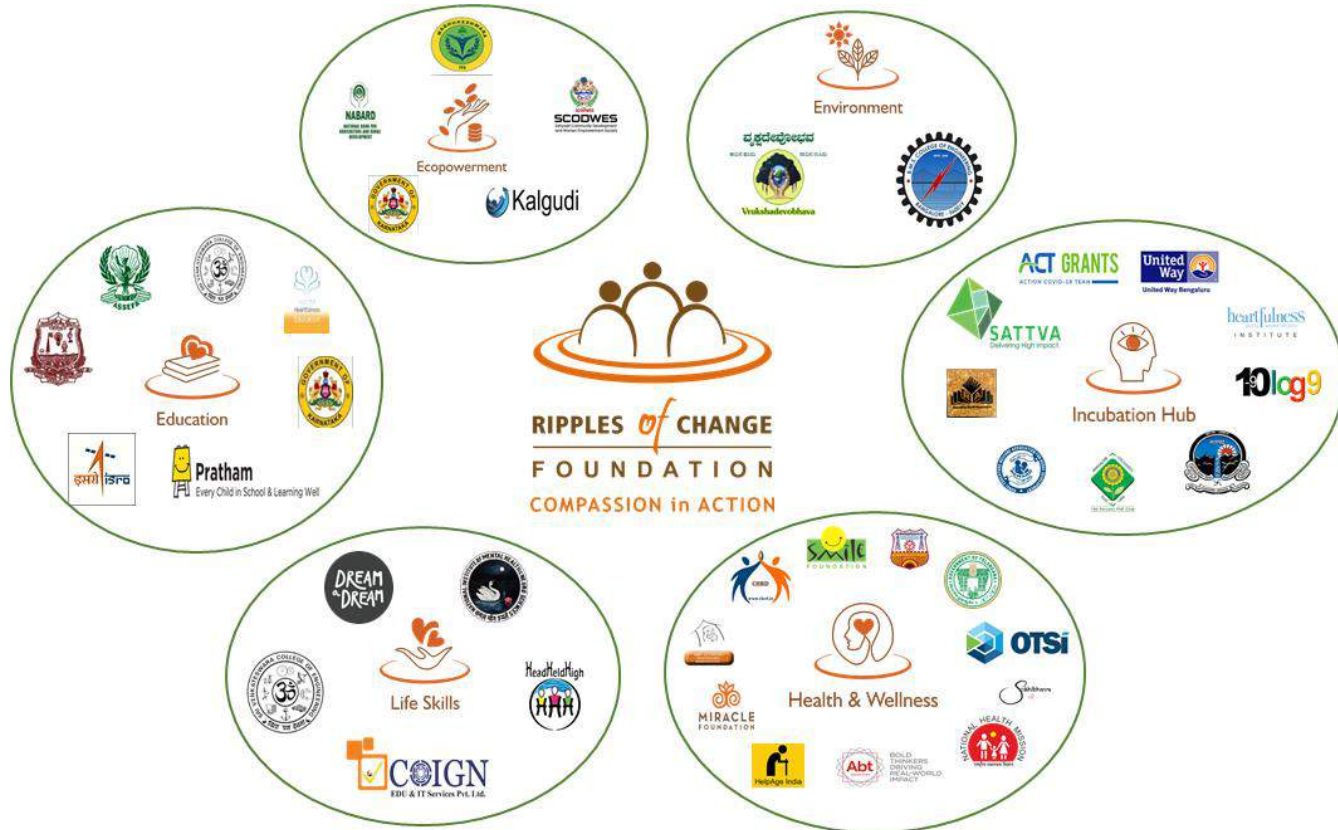

- Bridging the gap between producers and consumers
- Increased employment opportunities and income
- Enhanced financial management and decision making skills
- Accelerated economic growth through collaborative efforts
- Increased access to amenities and entitlements
- Creation of a cadre of self reliant & sustainable communities
- Creation of a global and perennial market for rural produce
- Improved participation of communities in governance and rural economy
